

TE Connectivity acquires Kemtron Ltd. to expand performance materials offerings

TE advances capabilities in electromagnetic interference (EMI) and radio frequency interference (RFI) shielding

HARRISBURG, Pennsylvania – May 2nd, 2022 – TE Connectivity (TE), a world leader in connectivity and sensors, today has completed the acquisition of Kemtron Ltd. (incl. its subsidiary -Kemtron Sarl), a United Kingdom based company and leading provider of EMI/RFI shielding, environmental sealing, gaskets and components.

With TE’s depth of engineering expertise and manufacturing of heat shrink tubing, the acquisition of Kemtron Ltd. further strengthens TE’s capabilities and design solutions for customers who produce sensitive electronics subject to extreme temperatures, harsh environments and radio frequencies.

“I am excited to welcome Kemtron Ltd. to TE,” said Nick Jones, vice president and general manager of TE’s Performance Materials business. “Combining TE’s expertise in heat shrink tubing, manufacturing scale and distribution with Kemtron Ltd.’s reputation for providing quality and market-leading EMI/RFI solutions, we can significantly enhance the value we bring to our customers. The resulting expansion of our advanced materials science and engineering capabilities marks an important milestone in our strategic vision to expand in these critical shielding and sealing markets.”

ABOUT TE CONNECTIVITY

TE Connectivity is a global industrial technology leader creating a safer, sustainable, productive and connected future. Our broad range of connectivity and sensor solutions, proven in the harshest environments, enable advancements in transportation, industrial applications, medical technology, energy, data communications and the home. With approximately 85,000 employees, including more than 8,000 engineers, working alongside customers in approximately 140 countries, TE ensures that EVERY CONNECTION COUNTS.
